

LOST SHIP SENDS CLEAR SIGNALS

Steamer Valbanera, Carrying 300 Passengers, Apparently Rode Out Gale

U. S. CRUISER GOES OUT IN SEARCH

The Valbanera Is Six Days Overdue at Havana

Havana, Sept. 15.—Loud and clear wireless signals from the Spanish steamer Valbanera, which is six days overdue and for which grave fears have been felt, were received by the United States wireless station at Key West at midnight last night. The location and condition of the ship which has been riding out the traffic tropical hurricane which has raged over the Gulf of Mexico and adjacent waters since Sept. 9, were not given, according to reports reaching this city.

A United States cruiser will leave Key West this morning in search of the Valbanera, which from the nature of the wireless calls received from her, is believed to be within fifty miles of the Florida coast.

The Valbanera arrived off Moro Castle the morning of Sept. 9, but because of the tempest, was unable to enter port. There were 300 passengers on board the vessel.

ENGLISH LAND CHANGING HANDS.

Large Tracts Being Sold in Small Holdings Under Land Bill.

London, Sept. 15. (Correspondence of Associated Press).—The land of England is changing ownership under the operations of the land settlement bill. Large tracts are being acquired by small councils, which are selling them in small holdings to persons who make annual payments for them.

Until the enactment of the measure England was the only country in Europe which denied to the smaller cultivators of the land sufficient facilities to enable them to purchase their holdings. In Germany 80 per cent of the cultivated land was owned by the men who worked it while only 12 per cent of the small agriculturalists of England owned their own farms.

Before the war the government energetically opposed the policy of occupying ownership for Englishmen, Welshmen and Scotchmen, but helped Irish

UNFAVORABLE NEWS CAUSED RESIGNATION

Belgrade, Saturday, Sept. 13.—Lieut. Davidovich, the premier, made public today his letter to Prince Regent Alexander by which his ministry resigned. The letter, which was dated Friday, Sept. 12, says the latest news from the peace conference has been unfavorable and the "cabinet has been unable to obtain the suppression or attenuation of the clauses dealing with minorities which infringe upon national sovereignty and cannot sign a document of an international character which does not prescribe reciprocity."

The prince regent has accepted the cabinet's resignation, but has asked the ministers to continue in office until the crisis has been settled.

44-HOUR WEEK PROPOSITION Threatens to Cause Trouble in United Typothetae of America.

New York, Sept. 15.—The annual convention of the United Typothetae of America opened here to-day with the question of the 44-hour week up for settlement, although it was not on the convention program. The recent vote taken by the job and book division of the international printers' organization to put the 44-hour week into effect on May 1, next, threatens to cause a division in the printers' ranks, the largest local unions of New York City demanding that it become effective on Oct. 1.

Other subjects to be discussed include general labor conditions, and the relations between the printing industry and its customers.

Delegates representing 3,700 master printers are here for the convention.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years' standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that so-called external remedies applied or inserted into the rectum cannot cure piles and at the best only give temporary relief. This is also true of surgical operations, which simply remove them after formation, but in no wise act on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first allays all inflammation and then by direct contact with

all ulcers and piles, causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blasted relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation, really wonderful results have been accomplished.

The author of this amazing discovery desires all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively conquers even in the worst case, and he has instructed druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT.—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared, as in such cases it is not necessary to take the internal prescription. If your druggist cannot supply you, we will gladly send either of the above small charges paid in receipt of price, Internal Treatment \$1.50, war tax 5c, Ointment 50c, war tax 2c extra. GERMAN GUNS RUSTING OR SOLD FOR JUNK

Germany Is Having a Hard Time in Disposing of a Great Quantity of War Material.

With the American Forces in Germany, Sept. 14. (Correspondence of the Associated Press).—How to dispose of war material worth many millions of marks is a problem confronting German military authorities. Press reports from various parts of Germany indicate that great masses of guns and other war material are rusting on old drill grounds or are being sold for junk.

Illustrated papers recently published a photograph of an enormous stack of shell damaged cannon which were to be broken up in Westphalia for the metal.

Newspapers say that on the old artillery drill ground at Oldenburg there are more than 1,000 wagons and guns in various stages of wreck, awaiting purchasers. Some of the editors have been demanding that something be done at once to get old baggage wagons and other former war vehicles into the hands of the farmers, who are much in need of wagons.

Article 109 of the peace treaty states that "within two months of the coming into force of the present treaty German arms, munitions and war material, including anti-aircraft material, existing in Germany in excess of the quantities allowed, must be surrendered to the governments of the principal allies and associated powers, to be destroyed or rendered useless."

German newspapers say that vast stocks of wagons, field ranges and guns and other material are stored at military posts throughout the country and that the German officials are making no effort to dispose of them.

NEW HAVEN NEWSPAPER MEN GO ON STRIKE

News Writers on Three Papers Went Out To-day in Demand for Definite Scale of Compensation.

New Haven, Conn., Sept. 15.—Three afternoon newspapers here to-day proposed to issue their editions under unusual conditions, a strike of news writers having gone into effect on these publications following a strike on the Morning Journal-Courier at last midnight.

Managing editors and editorial writers who were not members of the newly formed News Writers' Equity association took up duties of city editors and copy readers, while the places of street men were filled by subscribers. The strike follows refusal of publishers to increase wages of street and desk men.

The Equity association claims that practically all staff and street men on the four dailies here are members and had endorsed the proposal to strike in event of the failure of the publishers to fix a definite scale of compensation. The evening papers are the New Haven Register, the New Haven Times-Leader and the New Haven Union.

Proof readers on the papers did not strike, as they are not regarded as part of a news writing staff.

TWO MEXICANS WERE LYNCHED

Following Their Murder of Patrolman at Pueblo, Colorado

TWO SHOTS FIRED AT ANOTHER OFFICER

Consul Ortiz Has Ordered Mexicans Not to Celebrate the Mexican Holiday

Pueblo, Colo., Sept. 15.—Mexican residents of Pueblo were advised to-day by Adelaido J. Ortiz, Mexican consul in Denver, to refrain from celebrating the anniversary of independence of Mexico from Spanish rule. This was the only action by the consul in connection with the lynching here Saturday night of Jose Gonzales and Salvador Ortiz, Mexicans, following their murder of Patrolman Jeff Evans. Consul Ortiz said he was awaiting instructions from Mexican Ambassador Bonillas at Washington.

The only semblance of disorder since the lynching was the firing of two shots last night at a patrolman. Neither shot took effect, and the identity of his assailant was not discovered.

HUMAN FLOTSAM IN POLAND.

Trainloads of Wretched People Being Haunted About the Country.

Warsaw, Sept. 15. (Correspondence of the Associated Press).—All through the quiet portions of Poland are to be seen long trains of freight cars filled with the displaced population of the troubled regions. They are the human flotsam from Russia, homeless some of them for years, and in many cases hundreds of miles from their homes.

On the grass and weed-grown sidings these long trains dot the country side. Scanty and ragged washings fly from the nearby bushes and on improvised stoves or open fires on boxes of food they cook such meagre food as foraging or charity either of the village or government gives them. Generally they are wretchedly clothed, the children often being half-naked.

Many of these refugees are trying to get back to their homes in the freed regions, but many more are simply "milling" about aimlessly, having long ago abandoned hope. Now and then a locomotive will drag them slowly somewhere, so these floating and pitiable people drift about Poland and face the rigors of near-winter.

CARRIES AUTO FOR EMERGENCIES.

Premier Clemenceau Resorts to It When Trains Are Delayed.

Paris, Sept. 15.—Whenever Premier Clemenceau travels in a special train, his automobile is always carried on a flat car at the end. If a railroad wreck delays his train he resorts to the auto mobile. This happened the other day when, on returning from his vacation in Vendee, a wrecked freight train blocked the track.

To one of the members of the Chamber of Deputies who joked him about it, the premier denied that his plan of carrying his automobile by train implied lack of confidence in the ability of his colleague, Minister of Railways Clavelle, to operate his trains on time.

WILL NOT ACCEPT THOSE UNDER WEIGHT

Do you realize that unless your weight is up to normal you are actually in danger of serious illness?

No insurance company will insure those who are underweight.

Many thin people find that they gain weight steadily while taking Father John's Medicine.

The pure food tonic elements, which are contained in this old-fashioned prescription strengthen and build up those who are thin, weak and run down. It is real food and in a form which even the weakened system can easily take up.

Father John's Medicine has been in use over 60 years. Contains no alcohol or dangerous drugs.—Adv.

VAR-NE-SIS Conquers Rheumatism

J. E. Willett, 59 Fourth avenue, Lowell, Mass., reports: "For twenty years I suffered off and on from rheumatism. It started in my shoulders and hands and gradually worked down to my knees and feet. I could not bend my knees and was obliged to walk flat-footed. In order to dress I had to hold on to one side of the bed, as I could not bear my weight on my feet. After taking Var-ne-sis a few weeks I am able to be about in all kinds of weather and have not had a sign of rheumatism since." The above is only one letter. I have hundreds of such that prove that Var-ne-sis conquers rheumatism. Var-ne-sis at druggist or direct in liquid or tablet for \$1.25. Send for proof to W. A. VARNEY, Lynn, Mass.
